

IMPACT REPORT

2023 GOLF TOURNAMENT

Through strong public and private partnerships, EOC can leverage funding and resources that are directed to improving the energy affordability for households across Colorado that include seniors, veterans, persons with disabilities, neighbors, and friends.

Energy Outreach Colorado (EOC) has been a leading expert on issues impacting low-income energy consumers for more than 30 years and is dedicated to the efficient delivery of cost-effective energy assistance, emergency furnace repair or replacement, energy conservation and energy education for income-deficient households to maintain their well-being and encourage self-sufficiency.

Your sponsorship has provided vulnerable Coloradans with the resources needed to thrive.

THANK YOU!
